## READER

Vol. 1: no. 7 May 1-15, 2004

**Happy Trails to you until we meet again!**

**Congratulations to our Class of '04**

**You are among the very best and we will miss you as you go on to another phase of your education.**

So how many people get their Associates Degree in 2-year institutions? In 2002-2003 there were **578,865**.

You are in excellent company!

## CINCO DE MAYO

This annual Mexican holiday celebrates the defeat of Napoleon III's troops by General Zaragoza. Bullfights, beauty contests, parades, speeches and of course, lots of FOOD make it sound exactly like the American Fourth of July. Celebrate and have an authentic Mexican meal. After all, **12.5%** of the American population is Hispanic. So have a taco, tamale, chili, or other Hispanic specialty today!

## EDUCATION PAYS

### STAY IN SCHOOL

#### Lifetime Earnings

Not a HS graduate	\$ 993,466
High School	\$1,298,316
2-year degree	\$1,527,582
4-year degree	\$2,173,417
Master's degree	\$2,312,426
Doctorate	\$2,907,904

On average, a 2-year degree can earn almost \$230,000 more than a high school graduate. Education always pays off in the long term. If you have not already registered for Fall semester, do it today. We want you to earn those big bucks!

**JOBS needing a College Degree will grow 40% in the next 10 years.**

America is seeing a vast occupational shift in the future. Today **33%** of jobs are managerial, professional and technical, and it is expected to grow to **61%** in the next 10 years.

**Will you be ready?**

#### Who said?

Genius is one per cent inspiration, 99% perspiration?

*See below*

**DID YOU KNOW?** There are over **58** million dogs in this country and they eat over **\$11 billion** in dog food every year.

An average person uses **57** sheets of toilet paper a day. Are you average?

*Answer: Thomas Alva Edison*

Oops! The editor is abashed. In a previous issue, an error on the cost of the jet fuel; it is \$143,212.50. Snickers bar to Tom F. for finding the mistake.
