Earth Day—April 22

See the website
www.earthday.net for more
information on the celebration!

National Poetry Month

For more information see
www.poets.org provided to you from
the American Academy of Poets.

Calendars

In 1976 there were fewer than
200 calendars. Most were given
away free by businesses eager
to keep their name and tele-
phone number in front of their
customers all year.

Now, over 6,500 different cal-
endars are available (for a fee).

PUMP IT UP!

On April 24, from 10:30 to 1:30 in the drop off/
pickup driveway outside the Barlow Planetar-
ium, there will be free tire pressure checks.
Proper tire inflation on your vehicle will extend
tire life and improve your gas mileage which
will impact the environment.

So, get your checkup for Earth Day and help
save gas and the planet!

Discussion Questions

According to Christine Rosen, in
New Atlantis, “Television and
computers are creating a two-class
society: people of the screen and
people of the book.”

Do you agree?

Philip French, a British film critic, thinks
that the cinema has exhausted and run
its course after 100 years, as all stories
have been told, and except for technical
improvements all is just repetition.

Do you agree?

“Reconnecting to the Earth: Healthy Farms, Healthy Foods, and Healthy
Communities.” The speaker is Dr. John Ikerd. This will be at 12:00 on April
20 in Room 1229.

Free to all, as part of the Scholars Series. Celebrate the Earth this month.
