

Information for Visiting Students

UW-Platteville Fox Valley Engineering Program

Visiting students include the following:

- Co-op or intern students placed at Fox Valley area companies
- Students from other engineering programs wishing to take a class
- Professionals from business/industry taking a class for professional development

Please use the following checklist to assist in registration and setting up other course related needs. Failure to do so will impact having computer network access, a parking permit and UW-Platteville email, PeopleSoft, and course management (D2L) access.

Admission and registration

Individuals wanting to take a UW-Platteville Engineering course at UW-Fox Valley should first contact the Fox Valley Engineering Program Office at 920/832-2854 or email foxplattegr@uwc.edu. A program advisor will assist you in the application and/or registration process.

Credit for co-op experience

Co-op credit Students needing full time status for insurance purposes should enroll in co-op for credit. You must contact the co-op office for information about enrolling in co-op.

Consultation with your advisor

Students currently enrolled in courses on the UW-Platteville main campus should review the course choice with a faculty advisor or department chair. Those enrolled in non-UW-Platteville engineering programs should also confirm course transferability using TIS <http://www.uwsa.edu/tis/> and/or consulting with an advisor at your home campus.

UW-Fox Valley Network Access

Visiting students must request network access to be able to login to computers on the UW-Fox Valley campus and engineering classrooms. Please fill out the Student Request for Network Access form (<http://www.uwfox.uwc.edu/uwplatteville/networkaccess.html>) and review the UWC Computing and Network Usage Policy.

UW-Fox Valley Parking Permit

UW-Platteville login information for access to PeopleSoft, D2L and email.
