County Board should support UW-Fox Valley

The Winnebago County Board of Supervisors would serve their county and constituents well by supporting the proposed communications arts center at the UW-Fox Valley in Menasha. Their counterparts in Outagamie County have already done so.

I am a 63-year-old alumnus of UWFV and when I retired last year, I returned to the campus to audit classes. UWFV is a quality junior college that serves the citizens of our area very well.

The students at UWFV are primarily residents of Winnebago and Outagamie counties. They are well served by an outstanding faculty and support staff at the campus in Menasha.

UW-Fox Valley is truly a gem and is a campus we in northeastern Wisconsin can be proud of. The Winnebago County Board can make it an even better campus by supporting the proposed communications art center.
